

## Module Instructions

In order to complete the following assessment, we suggest you go through these steps:

- 1) Examine each module of the assessment with your group.
- 2) Split your group up into teams with at least two students in each. Depending on the size of your student group, each team should handle one or more modules.
- 3) Each team should read the questions and options carefully. Discuss each question among yourselves, and agree on the appropriate answer. You may need to talk to your cafeteria manager, school nurse, gym teacher, or other school administrators for some questions that you cannot answer alone.
- 4) Use the results of the **Student Survey** questions, which should be compiled on the **Student Survey Score Sheet** to answer the corresponding highlighted questions in your module(s).
- 5) When all questions and modules are completed, all of the teams should gather to discuss their module questions and answers.
- 6) Finally, as a group, complete the **Overall Scorecard**.

### **Please Note:**

- Some schools may not be able to answer all the questions in the modules, and that's okay. Simply answer all questions to the best of your ability and use the modules that best fit your circumstances.
- You may need to talk to adults in your school to obtain some of the information.
- You should have the results of your **Student Survey** handy
